Realize Your Dreams

Our values

PERFECT BALANCE

We aim to produce boats which offer the perfect balance between performance and comfort.

INDIVIDUALISM

We are traditionalists. All our yachts are handcrafted according to your individual needs. We don't bundle the additional features into packages. This way you can have your Cobra yacht just as you see it in your dreams.

QUALITY

Quality is something we don't make compromises with. We make sure that every boat which leaves our shipyard is inspected in each single detail.

SAFETY

With quality comes safety. Safety is of utmost importance when you sail in open sea or lake. We use high quality components and we leave nothing to a chance when constructing our boats.

COBRA 33

Cobra 33 from the Cobra Yachts shipyard is an excellent sailing yacht for tourism and sports. Designed by world-renowned designer Andrzej Skrzat, the yacht is fast and agile, and at the same time sailor-friendly. It is suitable for use on a lake or open sea, which was proved during tests in the Baltic Sea, the Mediterranean Sea and on Lake Constance.

Cobra 33 is a very spacious and comfortable sailing yacht. The cockpit is large and easily accessible with enough space for 8 people. Inside there are 2 or 3 cabins with appropriate dimensions, a large mess room (high enough to stand) and a separate sanitary room. Sanitary cabins, in addition to spaciousness, also offer numerous storage compartments for longer sailing. Wide half-decks give the crew the possibility of easy and safe communication. Foldable bench allows you to enjoy the sun and the company of the helmsman and other crew members. Thanks to its dynamic silhouette and the multitude of additional equipment options, the Cobra 33 sailing yacht will be an ideal choice for adventurous sailors who, at the same time, value quality and aesthetics.

Dynamic and agile construction.

Spacious cockpit.

Folding table, convenient to use.

Spacious, ergonomic interior.

Wide side decks for comfortable walkway.

Spacious bathroom with practical lockers.

Practical folding bench allows easy access.

COBRA 38

Cobra 38 is the largest sailing yacht currently offered by Cobra Yachts. We made sure that every sailor using it would feel like an overseas traveler.

Famous designer Andrzej Skrzat, following the latest trends in the yachting industry, gave it a very elegant and modern silhouette. Cobra 38 has a spacious cockpit with a large folding table and a falling platform at the stern for easy access. The helmsman's station is already equipped with two steering wheels as standard issue, which improves the control and makes the steering a pure pleasure. Standard configuration also offers 3 comfortable cabins and a separate sanitary cabin. On request, a fourth sleeping cabin or a second sanitary cabin can be added. The amount of available space is so large that it guarantees a comfortable journey and rest for an 8-person crew. Similarly to other Cobra Yachts units, also Cobra 38 has a very wide range of optional equipment that allows its personalization depending on the preferences and conditions in which it will be used. The manufacturer offers Cobra 38 yachts in the version with external and internal ballast. Design category A allows the Cobra 38 crew to enjoy the charm of sailing not only on lakes, but also on the seas.

A cruise on the Cobra 38 sailing yacht is a pure adventure.

Attractive outline.

Practical, well organized Galley.

Three bedrooms.

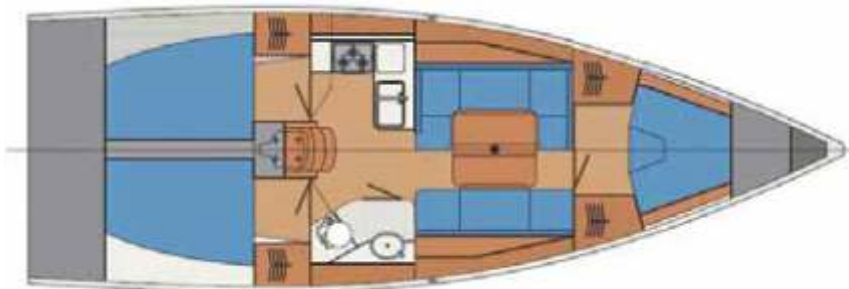

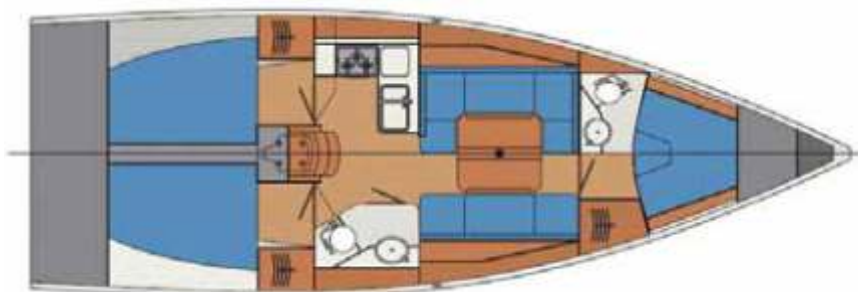

Two steering wheels.

Falling aft platform – easy access and attractive appearance.

Spacious cockpit with a large folding table.
